Supervisor _____ Phone/email _____

Job title/responsibilities _____

Dates of employment _____ Salary _____

Reasons for leaving (if applicable) _____

May we contact your previous supervisor for a reference? Yes No

Areas of Interest & Location Preference

There are two categories of internships available in this program; internships in the Ecosystem Data Assembly Center at Stennis Space Center and internships throughout the Gulf in a variety of disciplines at a variety of locations. Please note that housing at the internship location is NOT provided as this may play a role in your choice. Additionally, note that daily travel to and from the internship workplace is the responsibility of the student.

Please find position descriptions, additional qualification requirements and internship locations on the 2014 Internship Map. (<http://ngi-internship.disl.org/>).

Check here if you wish to be considered for the NOAA Ecosystem Data Assembly Center (EDAC) internship located at Stennis Space Center. This opportunity is for undergraduates majoring in Computer Engineering or related disciplines.

For all other internship positions, please check your area(s) of interest (you may check more than one).

Physical Sciences Engineering Biological/ Environmental Sciences

Education Social Sciences Information/Computer Sciences

Please select your internship location preferences.

First choice _____

Second choice _____

Third choice _____

Personal Statement

Please submit an essay (~500 words) that discusses how this internship will help you achieve your career goals. If submitting using this form, type your essay in the space below, otherwise, please submit as an attached document.

Disclaimer & Signature

Sending this application directly from a **personal** email account will serve as your signature.

I certify that my answers are true and complete to the best of my knowledge. If this application leads to employment, I understand that false or misleading information in my application or interview may result in my release.
